Helpful Brochures Available on ICT Website

The Insurance Council of Texas recently posted a variety of Spanish language brochures and guides which contain valuable information about protecting your home and car. The brochures include Hurricane Awareness and Preparedness, Home Burglary Protection, Insurance Fraud Prevention, and a Guide to Creating a Home Inventory file. The Home Inventory file is especially valuable. It can help you document all of your personal belongings, and you can file it away in a variety of safe locations to be accessed in the event that a catastrophic situation destroys your home. These PDF and Word documents are available in both English and Spanish and can be found at the following address:

<http://www.insurancecouncil.org/consumertips.asp>

Simply scroll down the list to read or print the document. Encourage your readers or listeners to visit this webpage and read or print any documents they consider useful.

The Insurance Council of Texas is the largest state insurance trade association in the country consisting of approximately 500 property and casualty insurers writing business in Texas. For more information visit ICT's Web site at www.insurancecouncil.org.
