

Benefits of Membership

Representing Members' Interests

As members of ICT, insurers can collectively represent their interests in the regulatory process, promote the interests of the Texas property and casualty industry, and stay abreast of events and trends affecting the business of insurance in Texas. Membership provides each company the opportunity to play an active role in determining Texas' insurance regulatory policies. ICT, as a state-based trade association, is able to provide comprehensive coverage and focus attention on the events and policies in Texas that shape our members' business experiences here in Texas.

ICT advocates and educates on behalf of its members in public hearings and in meetings with the staff of the Texas Department of Insurance and the Division of Workers' Compensation. ICT attends all TDI hearings and, when appropriate, provides testimony or written comment on behalf of its members. We develop our comments and testimony through input from our committee system and review by legal counsel.
